Chairman Julius Genachowski
Commissioner Michael J. Copps
Commissioner Robert M. McDowell
Commissioner Meredith Attwell Baker
Commissioner Mignon Clyburn

Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Dear Chairman Genachowski and Commissioners:

The mission of the Morristown Area Chamber of Commerce is to create, nurture, and expand diverse economic growth, and be an advocate for business in Hamblen County and the Lakeway region. As the CEO of the Morristown Chamber for a number of years, I know there are several key factors for running a successful business. In today's digital economy, we are seeing a growing demand for connectivity of all kinds. We look forward to seeing the positive impact that the combined AT&T and T-Mobile network could mean for all of our current and future chamber members that are the economic engine for our area.

Morristown is proud to have industries such as manufacturing and health care, both of which have become more and more reliant on mobile communications to get their work done. Whether on an assembly floor or in an ambulance, the ability to connect with coworkers, customers and friends has increased dramatically in the past decade. With the promise of increased capacity and the introduction of advanced technologies like mobile broadband that the AT&T/T-Mobile merger would bring, our chamber members will have even better chances for growth and job creation.

Access to the latest technology is important to the Morristown Chamber and its membership. The merger between AT&T and T-Mobile merger would bring advanced technologies to our area. Please give this merger your full support when it comes before the commission.

Sincerely,

C. Thomas Robinson, CCE, CEcD
President & CEO
